

Figure 1 consists of 12 micrographs arranged in two rows of six. The top row shows the early stages of chick embryo development: (a) Fertilized egg, (b) 1st cleavage, (c) 2nd cleavage, (d) 4-cell stage, (e) 8-cell stage, and (f) Morula stage. The bottom row shows the later stages: (g) Gastrula stage, (h) Hatching, (i) Hatching, (j) Hatching, (k) Hatching, and (l) Hatching. Each image is labeled with its corresponding letter and a scale bar indicating 0.5 mm.
